Chairman's Statement

Behind the scenes ADVFN has undergone a transformation. In the past I have said to look at the website to see the results of our efforts, but this year this doesn't do justice to the extent of developments in the last year. ADVFN is no longer solely a UK-centric stocks and shares website. If you are in Italy, Japan, Brazil, Germany, France, India or the USA you will see a geo-targeted, native language version of the site. We are operating on a global basis, while enjoying the cost benefits of managing these sites, primarily, from London.

ADVFN is now becoming an international brand. We have taken data from most of the world's stock exchanges for many years; however we have now tailored this data to specific localized regional markets. We have been number one in the UK for some years now; while this is very good, the UK is only a small part of the opportunity for ADVFN.

Our tactics have been to address familiar markets from London and partner in territories such as Japan and Brazil which, although exciting and potentially lucrative, are hard for us to approach directly. Meanwhile we have made acquisitions when opportunities have arisen. Each of these has offered us the chance to incorporate complementary businesses at a keen purchase price. This means we are currently in a position where we have all the pieces in place to grow in territories we have already entered and can replicate this model in new global markets.

Since the year end we have made big strides towards our growth strategy by buying InvestorsHub.com and Silicon Investor - two top five online investment community websites in the North American market which have over 100 million combined monthly page views. The purchase was completed in September of this year and we are now starting the process of integrating the businesses. The addition of these two sites has doubled the size of ADVFN's traffic - a significant development for our future revenue development. Advertising space on the UK part of ADVFN often sells out months in advance, and once integrated this new traffic greatly expands our advertising inventory. We are constantly adding new pages and features to keep up with the demand from our advertisers and this new traffic is an exciting boost, arriving as it does within a strong advertising market with significant pent up demand.

We are also pleased to report ongoing progress from Equity Development, which we acquired in February of this year. The first turnover milestone, in respect of the financial year to June 2006, was comfortably met. Equity Development's core product is the production of high quality equity research. Their profitable financial year saw a rise of over 40% in the number of companies paying for this product. In addition, Equity Development was able to expand its range of services approved by the FSA and became an authorised Corporate Adviser for companies on the thriving PLUS Markets exchange.

ADVFN's wholly-owned dating website CupidBay.com announced at the end of March that it had surpassed the milestone of one million registered users. In the last seven months user numbers have accelerated and now stand at 1.3 million; an increase of 30%. With page impressions of 45 million a month and approximately 1,800-2,000 new members registering each day, the site's full advertising potential is ready to be exploited.

Since its acquisition in July 2005, Fotthing.com has continued its transition from a niche product to a more mainstream website that now sees 100 new sign ups a day and boasts approximately 120,000 registrants. At the time of purchase the site had around 4000 users; reaching 95,000 plus users at the end of June.

I always take this opportunity to thank our staff for their hard work and this time is no different. I also want to welcome new members of the ADVFN team at our joint ventures in Brazil, Japan, and at InvestorsHub.com and Silicon Investor. It has been an exciting year of developments.

ADVFN PLC

Managing Director's Review

This has been a very busy year for ADVFN and has seen sales grow from £3,303,000 last year to £4,463,000; a growth of 35% in turnover. It has seen both our subscription levels grow to record levels and our advertising income rise strongly to reach historic highs. We have also been on the acquisition trail, buying Equity Development and entering the acquisition process with InvestorsHub.com and Silicon Investor, two superb US investment bulletin boards which we have subsequently purchased.

This strong sales performance extends the consistent year-by-year growth and expansion of ADVFN. We have set out to grow by investing both at home and abroad and this objective is being realised at an accelerating rate. Alongside developments in direct markets we have been developing our Japanese and Brazilian joint ventures which by the year end were reaching completion, and have since enjoyed successful soft launches.

By aggressively investing, we have not only grown sales but also broadened the scope of our offering and our international revenue from both subscriptions and advertising sales. The ADVFN platform is now addressing exciting global markets with local language versions of the site and this is driving growing levels of business. This is most easily appreciated when looked at in terms of registered user acquisition which is currently running at levels 50% higher than in 2005.

We now have sites in Brazilian, English (British and American), French, German, Italian and Japanese, with a geo-targeted site aimed at the Indian market and a new joint venture for China and Hong Kong. Meanwhile the acquisition of InvestorsHub.com and Silicon Investor, a process that began in the spring of 2006, has added significant traffic and sees ADVFN become a top tier US stock information provider. This platform gives us critical mass in the key US market, and 2007 will see us bring our content to the Silicon Investor and InvestorsHub.com user bases while exploiting the exciting revenue opportunities provided by the leading equity market in the world. ADVFN has had good advertising sales in the US in 2006; and 2007 should see a substantial rise in revenue from North America.

Current Trading

Since June of this year our user base has expanded and has grown a further 10% from 700,000 to over 770,000. Across all our businesses, total user numbers grew 100% over the last year to 2,000,000 from 960,000 at June 2005.

Prospects

We have long stated that we believe that it is in the best interests of shareholders that ADVFN invests to grow and that no one wants to own a tiny cash cow operating in a market that would fast pass it by. As such we have carefully invested our capital into developing ADVFN so that it can become more than a small niche provider of UK price data and share chat. We feel that this process is coming to fruition. 2007 will see ADVFN using its global platform - and in particular its US acquisitions - to generate further strong top line growth. Gross margins for an online service are high and this will drive a strengthening bottom line. We are particularly enthusiastic about the prospects for InvestorsHub.com and Silicon Investor where traffic levels offer many lucrative opportunities for sales revenue and where traffic levels can be enhanced by ADVFN's information products.

This leads us to believe we are opening a new chapter in ADVFN's history, one in which we will grow quickly.

Report of the Directors

Statement of directors' responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

In so far as the directors are aware:

- there is no relevant audit information of which the company's auditors are unaware; and
- the directors have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Auditors

Grant Thornton UK LLP offer themselves for reappointment as auditors in accordance with section 385 of the Companies Act 1985.

ADVFN PLC

REPORT OF THE INDEPENDENT AUDITORS TO THE MEMBERS OF ADVFN PLC

We have audited the group and parent company financial statements (the "financial statements") of ADVFN plc for the year ended 30 June 2006 which comprise the principal accounting policies, the consolidated profit and loss account, the consolidated and company balance sheets, the consolidated cash flow statement, the consolidated statement of total recognised gains and losses and notes 1 to 27. These financial statements have been prepared under the accounting policies set out therein.

This report is made solely to the company's members, as a body, in accordance with Section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

The directors' responsibilities for preparing the Annual Report and the financial statements in accordance with United Kingdom law and Accounting Standards (United Kingdom Generally Accepted Accounting Practice) are set out in the Statement of Directors' Responsibilities.

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the financial statements give a true and fair view, whether they are properly prepared in accordance with the Companies Act and whether the information given in the Report of the directors is consistent with the financial statements. We also report to you if, in our opinion, the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and other transactions is not disclosed.

We read other information contained in the Annual Report and consider whether it is consistent with the audited financial statements. This other information comprises only the Report of the directors, the Chairman's Statement and the Managing Director's Review. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements. Our responsibilities do not extend to any other information.

Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgments made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the group's and company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

ADVFN PLC

Opinion

In our opinion the financial statements:

- give a true and fair view, in accordance with United Kingdom Generally Accepted Accounting Practice, of the state of the group's and the parent company's affairs as at 30 June 2006 and of the group's loss for the year then ended;
- have been properly prepared in accordance with the Companies Act 1985; and
- the information given in the Report of the Directors is consistent with the financial statements for the year ended 30 June 2006.

ADVFN PLC

Accounting Policies for the year ended 30 June 2006

The financial statements have been prepared in accordance with applicable United Kingdom Accounting Standards and under the historical cost convention. The principal accounting policies are set out below. The company has adopted FRS21 'Events after the balance sheet date' and FRS25 'Financial instruments: presentation and disclosure' which apply for the first time this year, albeit they have had no impact on the group.

Group financial statements

The group financial statements consolidate those of the company and its subsidiary undertakings drawn up to 30 June. All intra-group transactions are eliminated on consolidation. Acquisitions of subsidiaries are dealt with by the acquisition method of accounting.

Goodwill arising on consolidation, representing the excess of the fair value of the consideration given over the fair value of the identifiable net assets acquired, is capitalised and is amortised on a straight line basis over its expected useful economic life of five years, being the period over which the company expects the value of the business to exceed the underlying net assets.

Associated undertakings

The group financial statements incorporate the associates under the equity method of accounting. The company balance sheet shows the investment in the associates at cost less amounts written off.

Turnover

Turnover is the total amount receivable in the ordinary course of business from outside customers for goods supplied as a principal and for services provided, excluding VAT. Subscription and advertising income is recognised over the period that the service is provided.

Intangible fixed assets

Intangible fixed assets are included at cost net of amortisation. Licences are being amortised over their expected useful economic life of five years.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost, net of depreciation and any provision for impairment. No depreciation is charged during the period of construction. Depreciation is calculated to write down the cost less estimated residual value of all tangible fixed assets by equal annual instalments over their expected useful economic lives. The rates generally applicable are:

Leasehold improvements	over the period of the lease
Computer equipment	33%
Office equipment	20%
Website development costs	see below

Website development costs represent the design and content cost associated with the development of financial software. They are capitalised only to the extent that they lead to the creation of an enduring asset delivering benefits at least equal to the amount capitalised. They are recorded in the balance sheet in the year in which they are incurred, in accordance with FRS 15 'Tangible fixed assets' and UITF 29 'Website development costs'. Such costs are amortised over their useful economic life of two, three or five years as appropriate.

ADVFN PLC

Accounting Policies for the year ended 30 June 2006

Deferred taxation

Deferred tax is recognised on all timing differences where the transactions or events that give the group an obligation to pay more tax in the future, or a right to pay less tax in the future, have occurred by the balance sheet date. Deferred tax assets are recognised when it is more likely than not that they will be recovered. Deferred tax is measured using rates of tax that have been enacted or substantively enacted by the balance sheet date. Deferred tax balances are not discounted.

Investments

Fixed asset investments are included at cost less amounts written off. Current asset investments are included at market value where they are traded on an active market. Unrealised gains and losses on current asset investments are recognised in the statement of total recognised gains and losses. Profit or loss on disposal of current asset investments is the difference between sale proceeds and carrying value.

Leased assets

Assets held under finance leases and hire purchase contracts are capitalised in the balance sheet and depreciated over their expected useful economic lives. The interest element of leasing payments represents a constant proportion of the capital balance outstanding and is charged to the profit and loss account over the period of the lease. All other leases are regarded as operating leases and the payments made under them are charged to the profit and loss account on a straight line basis over the lease term.

Defined contribution pension costs

Pension costs are charged in the year in which they are incurred.

Foreign currencies

Transactions in foreign currencies are translated at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities in foreign currencies are translated at the rates of exchange ruling at the balance sheet date. All differences are dealt with through the profit and loss account.

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability.

Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.

Notes to the Financial Statements for the year ended 30 June 2006

The turnover and (loss)/profit before taxation are attributable to the principal activities of the group as defined on page 6. All turnover originated in the UK. No split of the activities of the internet dating site is provided as the results are not material to the group.

Operating loss is arrived at after charging the following items:

	2006	2005
	£'000	£'000
Exceptional item - impairment loss	-	1,027
Amortisation of intangible fixed assets	337	260
Depreciation:

6. Tax credit on (loss)/profit on ordinary activities (continued)

The company has unused trading losses not included in the deferred tax account of approximately £4,729,000 (2005: £4,302,000) to carry forward against profits of the same trade which will be recovered once the company makes a profit. The credit can be reconciled as follows:

	2006 £'000	2005 £'000
(Loss)/profit on ordinary activities before tax	(964)	1,001
(Loss)/profit on ordinary activities multiplied by standard rate of corporation tax in the UK of 30%	(289)	300

Prior year research and development tax credits receivable	-	(11)
Current tax credit for year	58	(11)

7. (Loss)/earnings per ordinary share

The calculation of the basic earnings or loss per share is based on the earnings attributable to ordinary shareholders divided by the weighted average numbers of shares in issue during the year.

The calculation of diluted earnings per share is based on the basic earnings per share, adjusted to allow for the issue of shares and the post tax effect of dividends and/or interest, on the assumed conversion of all dilutive options and other dilutive potential ordinary shares.

Reconciliations of earnings and weighted average number of shares used in the calculation are set out below.

	Loss £'000	2006 Number of shares '000	Loss per share p	Profit £'000	2005 Number of shares '000	Earnings per share p
(Loss)/profit for the year	(906)			1,012		
Weighted average number of shares		469,165			439,932	
Basic (loss)/ earnings per share			(0.19)p			0.23p
Number of shares under option		-			45,478	
Number of shares that would have been issued at average market value		-			(20,096)	
Diluted earning per share	(906)	469,165	(0.19)p	1,012	465,314	0.22p

There is no diluted loss per share as the options are anti-dilutive.

Associated undertaking

The company owns 40.4% (2005:48.28%) of ALL IPO plc (ALL IPO) which is incorporated in England and Wales and its principal activity is the development and exploitation of on line IPO services. The aggregate share capital and reserves of ALL IPO at 30 June 2006 was £4,433,000. (2005: £4,412,000) and the loss for the year then ended was £872,000 (2004: loss of £260,000). ALL IPO had turnover of £1,000 (2005: nil), but no tax charge in the year.

Additionally the company held 29.1% (2005: 38.8%) of the ordinary shares of ADVFN Japan, K.K. a company incorporated in Japan. Its principal activity is the operation of financial information websites similar to that of ADVFN in Japan and Korea. ADVFN Japan had no turnover in either year.

*subsidiary of Equity Holdings Limited

On 31 January 2006 the company acquired 99.81% of the share capital of Equity Holdings Limited. Equity Holdings Limited acts as a holding company for its subsidiary, Equity Development Limited, a company incorporated in England and Wales which provides research, investor relations and consultancy services to quoted and unquoted companies. Equity Development is authorised and regulated by the Financial Services Authority.

The acquisition of Equity Holdings was financed by a combination of cash and share consideration. The terms of the purchase agreement state that deferred consideration in the form of further share issues, based on turnover milestones may also be payable by ADVFN. Based on forecast results, the company believes that payment of the deferred consideration is highly probable, therefore has provided fully for the future share issues in the balance sheet. Since the balance sheet date the company has acquired the remaining 0.19% of Equity Holdings.

16. Financial risk management

The group uses financial instruments, comprising cash balances, trade debtors, trade creditors and hire purchase and finance lease contracts, that arise directly from its operations. The main purpose of these financial instruments is to raise finance for the group's operations.

There were no group borrowings at 30 June 2006 or 30 June 2005. The fair value of the financial assets and liabilities is not significantly different from the amount included in the financial statements.

Short term debtors and creditors have been excluded from all disclosures other than currency risk disclosures.

The group operates in overseas markets and is subject to currency exposures on transactions undertaken during the year. The group does not hedge any transactions, and foreign exchange differences on retranslation of foreign assets and liabilities are taken to profit and loss account.

At 30 June 2006 the group had cash balances totalling £40,000 (2005: £15,000) held in US Dollars, Japanese yen or Euros. The group had no undrawn committed overdraft facilities.

Liquidity risk

Liquidity risk is the risk that the group will have insufficient funds to meet its liabilities as they fall due. The directors monitor cash flow on a daily basis and at monthly board meetings in the context of their expectations for the business to ensure sufficient liquidity is available to meet foreseeable needs. The group funds operating losses through periodic share issues to raise cash.

Interest rate risk

The directors do not consider that the business is exposed to material interest rate risk. The group finances its operations through cash reserves. The cash reserves held by the group during the year have negated the need to use interest bearing borrowings.

Credit risk

The group has significant cash balances. The balances are invested with UK clearing banks so as to obtain the best market rate of return but not exposing the group to risk of a loss of capital.
